

Master sample method on ALIS

Shoji Kimura

Master Sample Method

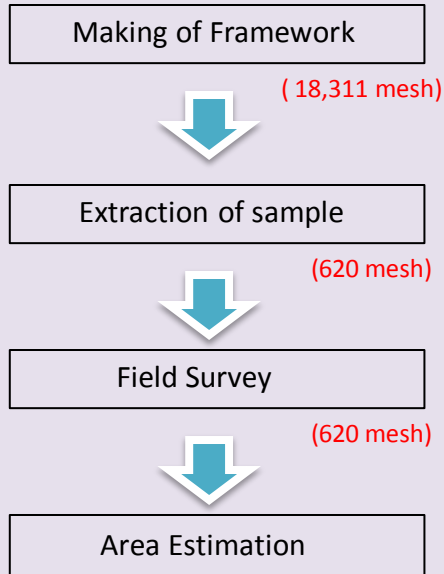

The master sample meshes are extracted from framework mesh file and gives population information to these extracted master sample meshes, and then extracts survey sample meshes from these master sample meshes.

Master Sample Method on ALIS

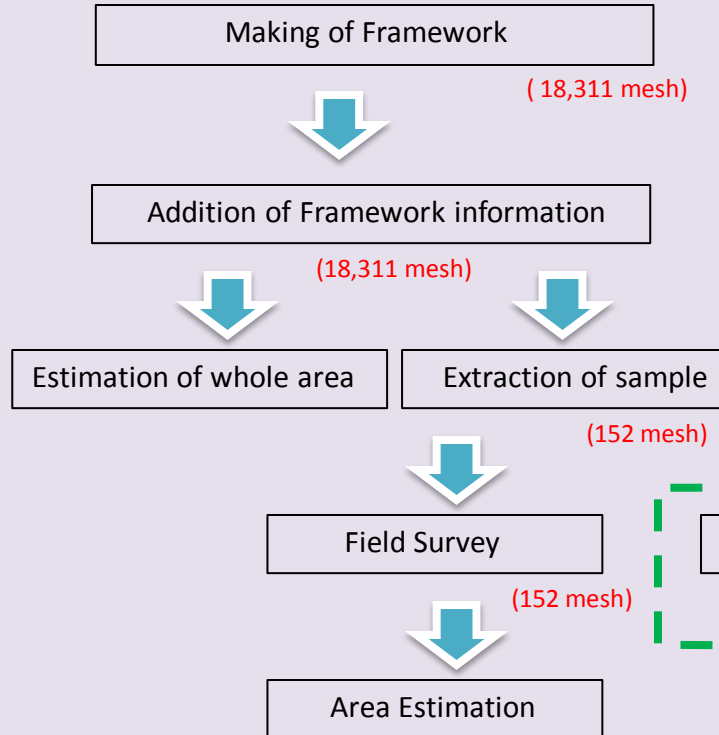

- Case of Khammouane Province, Lao PDR -

Simple estimation method

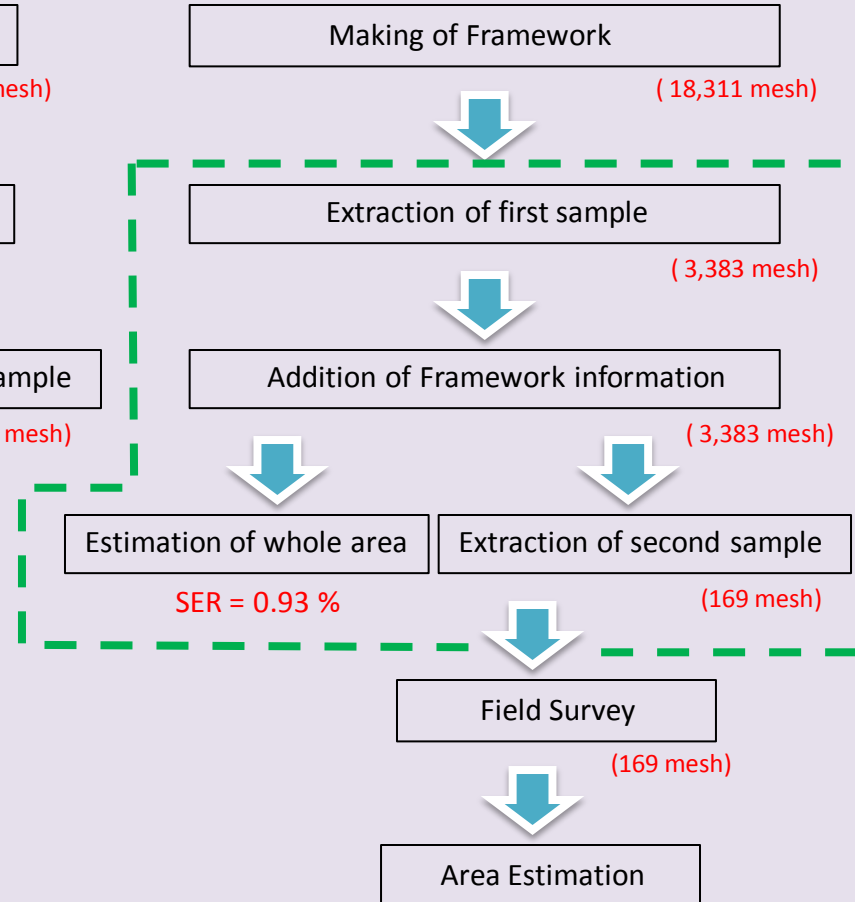

SER = 2.84 %

Rational estimation method

SER = 2.84 %

ALIS Operation Master Sample Method

SER = 2.84 %
